### PERSONAL PROJECT

#### MH Cinema(Book movie tickets)

Mar 2024 - Aug 2024

- Description: Developed and maintained the MH Cinema website, an online movie ticket booking platform using React and Java Spring Boot. Created RESTful APIs, implemented user authentication with Spring Security, and managed data with Hibernate and MySQL. Enhanced the UI with Chakra UI and managed state with Redux. Collaborated using GitHub, IntelliJ IDEA, and VS Code.
- Technologies:
  - Backend: Springboot, Spring Security, Hibernate, Spring Data JPA, RESTful Services, MySQL, Cloudinary
  - Frontend: ReactJs, Redux, ChakraUI, Material-UI
- Github:
  - Frontend:
    - Public Site: <https://github.com/Hughgz/MH-Cinema-Public.git>
    - Admin Site: <https://github.com/Hughgz/MH-Cinema-Admin.git>
  - Backend: <https://github.com/Hughgz/RestAPI-Cinema.git>

#### MH Hotel(Hotel Booking)

Jun 2024 - Now

- Description: Developed and maintained the MH Hotel booking website, an online platform for hotel reservations. Utilized Spring Boot, Spring Data, Spring Security, and Hibernate for the backend to create robust and secure RESTful APIs. Managed data with MySQL. Built the frontend with React.js, Redux, and Material-UI to provide a responsive and interactive user interface.
- Technologies:
  - Backend: Springboot, Spring Security, Hibernate, RESTful Services, MySQL
  - Frontend: ReactJs, Redux, Material-UI
- Github:
  - Frontend: <https://github.com/Hughgz/MH-Hotel-Client.git>
  - Backend: <https://github.com/Hughgz/MH-Hotel-Backend.git>

### EDUCATION

Nguyen Tat Thanh University  
Bachelor of Information Technology

Aug 2021 – Aug 2025

### CURRICULUM ACTIVITIES

[Google Solution Challenge](#) [Project name: [SignChat](#)]  
Hackathon Viet Nam [Project name: [SignChat](#)]

Dec 2023 - Feb 2024
